## PROFESSIONAL SUMMARY

---

Frontend Developer focused on building responsive, accessible, API-driven web applications with clean UI architecture and polished interaction design. Skilled in HTML, CSS, JavaScript, React, Next.js, SvelteKit, REST API integration, component-based development, responsive layouts, client-side validation, performance-conscious styling, and translating product ideas into smooth user experiences. I build frontend experiences that feel clear, responsive, accessible, and intentional, combining strong interface craft with disciplined delivery habits from real digital product environments.

## CORE SKILLS

---

HTML5, CSS3, JavaScript ES6+, TypeScript fundamentals, React, Next.js, SvelteKit, REST APIs, Fetch, async JavaScript, component composition, reusable components, accessibility, responsive web design, native CSS, CSS variables, animations, transitions, Git, GitHub, VS Code, Postman, Jira, Netlify, Figma implementation, cross-browser compatibility.

## EXPERIENCE

---

### Frontend Developer, Freelance

Remote | March 2025 - Present

- Built and deployed responsive web applications using HTML, CSS, JavaScript, React, and modern frontend practices.
- Developed API-driven applications with asynchronous JavaScript, validated inputs, error states, and dynamic UI updates.
- Created interactive tools including calculators, clocks, generators, dashboards, productivity interfaces, and portfolio experiences.
- Translated Figma designs into pixel-aware, production-ready landing pages optimized for responsiveness and usability.

### IT Project Manager - Internet Banking, UBA Group

Lagos, Nigeria | October 2023 - Present

- Led delivery of digital banking initiatives supporting 32+ million users across 20 African markets.
- Coordinated SIT, UAT, penetration testing, release readiness, and stakeholder sign-off for secure banking releases.

- Partnered with developers and business teams to improve delivery timelines by 25% through structured planning and execution.
- Managed API integration validation and release coordination, helping reduce post-release defects by 15%.

## EDUCATION

---

B.Sc. Pure and Industrial Chemistry, Nnamdi Azikiwe University, Awka

## PORTFOLIO

---

- **Invoice Management App:** responsive invoice workflow for creating, tracking, filtering, and managing payment states.  
Live: <https://invoicemgtapp.netlify.app/>  
GitHub: <https://github.com/Chizaram-Julius/Invoice-Management-App>
- **Habit Tracker PWA:** mobile-first habit tracking experience focused on streaks, progress visibility, and repeat use.  
Live: <https://habit-tracker-pwa-idea.netlify.app/>  
GitHub: <https://github.com/Chizaram-Julius/habit-tracker-pwa>
